4th July 2021

Dear All

RATIFICATION OF RULE CHANGES TO THE ALRC SUPPLEMENTARY COMPETITION REGULATIONS

At the Association of Land Rover Clubs S&ORC meeting held on the 3rd July 2021 there was a discussion about the use of cameras used in conjunction with video monitors whilst on competition sections. This was seen as a potential safety issue.

The following rule change was proposed at this meeting and ratified by the ALRC Council for immediate implementation.

Section D – Regulations Applicable to all Competition Events

D.2. General Safety

D.2.1. Whilst travelling forward, the use of live view video monitors in the vehicle to give a front or side view is prohibited.

Clubs are reminded that the Council members are voted into their positions on the basis of their experience and willingness to support the running of the ALRC for the benefit of all its members.

I would appreciate it, if you could pass on this information to your club members and if you have any queries about the above then please get in touch with me.

Yours sincerely
Simone Birch
Secretary
For and on behalf of The Association of Land Rover Clubs.
